BASIC VASCULAR ANASTOMOSIS SKILLS

09:00 -11:00 am

Venue: Skill lab - Faculty of medicine, Al-Azhar university, New Damietta.

Target audience: Young vascular fellows and trainees

Max. attendance: 16 attendants

Coordinator : Prof. Walied khareba

Trainers: Prof. Almetwaly Ragb, Prof. Ayman Mohy Eldien ,
Prof. Khaled Attia, Prof . Mahmoud Moawad, Dr. Alsayed Hadhoud,
Dr. Magena, Dr. Amr Baker , Dr. Ahmed Khaled

- Aim:**
- To train vascular fellows how to handle vascular instruments and vascular graft.
 - To train vascular fellows to perform side to side, end to side and end to end vascular anastomosis .

CONTENT
Introduction & Orientation
Orientation of vascular instruments
How to perform side to side & end to side vascular anastomosis
Hands on training (dry lab)

IMPORTANT NOTES
Due to limited availability, kindly register as soon as possible (Dr. Elsayed Hadhoud) whatsApp/ Mob: 01017071009
This workshop is only for registered candidates
Provide your formal valid ID
Please stick to the workshop rules

Basic endovascular skills

L 11:00 am -1:00 pm

Venue: Skill lab - Faculty of medicine, Al-Azhar university, New Damietta.

Target audience: Young vascular fellows and trainees

Max. attendance: 16 attendants

Coordinator : Prof. Walied khareba

Trainers: Prof. Almetwaly Ragb, Prof. Ayman Mohy Eldien ,
Prof. Khaled Attia, Prof . Mahmoud Moawad, Dr. Alsayed Hadhoud,
Dr. Magena, Dr. Amr Baker ,Dr. Ahmed Khaled

- Aim:**
- To train vascular fellows how to handle all endovascular tools.
 - To train vascular fellows about indications and contraindications as well as preoperative preparation of endovascular intervention.

Opening

🕒 09:30 – 10:00 am

Session 1

🕒 10:00 – 11:00 am

(10 minutes talk and 10 minutes discussion for every speaker)

Moderator:

Prof. Essam Elkady

Chairpersons:

Prof. Mahsob Mourad

Prof. Ahmed Taha

Prof. Tarek Abd Al Azeem

Prof. Hesham Sharaf

10:00 – 10:20

Lymphedema update

Essam Elkady

10:20 – 10:40

IVC Filter recent guidelines

Ayman Abd Elfattah

10:40 – 11:00

Infra-popliteal Angioplasty, all about

Mohamed El Maadawy

23rd
Feb | **2023**

Session 2

🕒 11:00am – 12:00pm

(10 minutes talk and 10 minutes discussion for every speaker)

Moderator:

Prof. Mostafa Soliman

Chairpersons:

Prof. Khaled El Hendawy

Prof. Mohamed Abd Al Hamid

Prof. Sayed Ali

Prof. Ehab Saad

11:00 – 11:20 Carotid End Arterectomy Technique
Omar El Kashef

11:20 – 11:40 Proglaid technique
Tamer Fekry

11:40 – 12:00 Simple EVAR and challenging EVAR what you
should know as a trainee
Magdy Hagag

Opening

🕒 09:30 – 10:00am

Session 1

🕒 10:00 – 11:00am

(10 minutes talk and 10 minutes discussion for every speaker)

Moderator:

Prof. Mohamed Omar El Farok

Chairpersons:

Prof. Tamer Fekry

Prof. Khaled El Kaffas

Prof. Omar El Kashef

Prof. Emad Hussein

Prof. Ayman El Samadony

10:00 – 10:20

EVAR & TEVAR tips and tricks

Mohamed Omar El Farok

10:20 – 10:40

IVC Filter tips and tricks

Ayman Abd Elfattah

10:40 – 11:00

Strock unit, what is going on?

Sayed Ali

Table 5: Management strategies in symptomatic and asymptomatic C A Stenosis

Omar El Kashef

23rd - 24th
Feb

2023

01:00 - 04:00pm

Target audience: Vascular specialists below 35 yrs

Capacity: 25-30 px

Timing: 45-60 min

Sitting: 15-30 min presentation & demonstrated videos with discussion.

I) Different techniques of thermal ablation of varicose vein tips and tricks workshop

Moderators:

Prof. Abdelaziz Abdelhafez
Prof. Sameh Elimam

30 min practical part:

Rotation program 3 work stations/10 min

Laser, radio – frequency & microwave ablation

II) Incompetent perforation ablation “different modalities” tips and tricks

Moderators:

Prof. Mohamed Hamza
Dr. Tamer Ezzat

30 min practical part:

Rotation program 3 work stations/10 min

Laser, radio frequency & microwave ablation of incompetent perforators.

23rd - 24th
Feb

2023

⌚ 01:00 - 04:00pm

III) Incompetent perforation ablation “different modalities” Basic principles & tips and tricks

Moderators:

**Prof. Omar Al-Mokhtar
Prof. Ahmed Mousa
Prof. Hany Abdel Momen
Prof. Mohamed Yehia Zakaria**

30 min practical part:

Rotation program 3 work stations/10 min Radio - frequency & microwave ablation.

IV)Tackle common procedural challenges

Moderators:

Prof. Omr Al-Farouk

Learning objectives:

- 1.Learn basics of diagnostic wires, catheters and snares.
- 2.Understand how to differentiate between Teflon wires and hydrophilic wires.
- 3.Explore how to cannulate visceral and cerebral vessels by using different wires and catheters as well as removal of foreign objects

V)RF ablation of varicose vein..I do it this way

Moderators:

Prof. Ayman Fakhary

VI) Role of the CDT (complete decongestive therapy)

Moderators:

Prof. Essam Elkady

Including: Lecture and hands on groups according to the number of attendees Held by:

Essity – Jobst

- Dr. Michel Fathy

- Consultant msc P.T

- International Instructor gueltig lymphology Frankfort Germany.
