

32nd Annual Meeting of the Egyptian Society of ANDROLOGY

Future Aspires for Andrology Practice
and Advanced Researches

22nd | 24th

February, 2024

Triumph Hotel, New Cairo, Egypt.

Organized by

Dear Colleagues

On behalf of the Egyptian Society of Andrology (ESA) and the Organizing Committee, we wish to extend our cordial invitation to everyone concerned about Men's Health to attend the 32nd Congress of Andrology that will be held from 22nd to 24th of February 2024, themed "Future Aspires for Andrology Practice and Advanced Researches", endeavoring to explore the contributing factors to Sexual and Reproductive Health and Rights (SRHR).

With an aim of binding the communication between the lab and the clinic, the researches and the practice.

The Scientific Committee designed a comprehensive

scientific program concentrating on future aspires & trials to improve both science & practice.

We plan to highlight the most updated Guidelines that represent the cornerstone of practice in the fields of Sexual and Reproductive Health and Rights (SRHR). We plan to discuss sperm biology, spermatogenesis, fertilization, male infertility, assisted reproductive techniques (ARTs), sexual dysfunctions, metabolic disorders, hypogonadism, sex hormones, prostate diseases and cancer with fertility preservation options. Also, we will focus on environmental hazards, prevention and management of Sexually Transmitted Infections (STIs) and family planning options with particular emphasis upon male engagement initiatives. We also aim to look in the future by touching subjects as stem cells, Intracytoplasmic Sperm Injection (ICSI) offsprings, germ cell transplantation, epigenetics, sperm deoxyribonucleic acids (DNA) and ribonucleic acids (RNA) damage.

The Egyptian Society of Andrology (ESA) believe that the congress will be attractive not only for the clinicians but also for basic scientists creating a joint forum for development of the fields of Sexual and Reproductive Health and Rights (SRHR).

The list of speakers will include well-recognized academicians, researchers, scientists, experienced professors and talented practioners. We hope that our scientific and social program will be fruitful and unparalleled opportunity to combine science and leisure in an inspiring environment and weather.

Do not miss our annual meeting of Andrology Looking forward to see you in the magnificent Cairo, 22nd - 24th February 2024.
