

Welcome Message

Dear Friends and Colleagues,

It is with great pleasure that we announce the 8th Congress of the Middle East Society for Sexual Medicine, to be held in Cairo, Egypt, on December 5th and 6th 2024.

The congress will be a gathering of world-class experts in sexual medicine and surgery, coming from the specialties of Andrology, Urology, Gynecology, Psychiatry, and Psychology. This year, we will also be welcoming experts from other fields that are (in)directly related to sexual health, including – and not limited to - Endocrinology and Nutrition.

MESSM 2024 Congress will serve as a hub for the exchange of knowledge and expertise, featuring important research and scientific collaboration for developing multi-center studies. The congress will be preceded with workshops in sexual surgery and psycho-sexual therapy.

About Cairo

Dubbed as "The City of a Thousand Minarets," Cairo stands as the 19th largest city worldwide. While deeply rooted in its rich history, Cairo is also home to a thriving modern society showcasing the latest in scientific research, medicine, shopping, architecture, nightlife, and cuisine.

Nestled along the banks of the Nile River, Cairo boasts a heritage that spans centuries, showcased by the fabulously preserved medieval Islamic city and Coptic sites in Old Cairo.

Cairo truly never sleeps! The bustling markets, energetic art scene and exciting outlets are endless. Exploring the vibrant modern malls and the timeless charm of bazaars like Khan al-Khalili adds to Cairo's allure. Of course, no Cairo excursion is complete without marveling at the iconic Giza Pyramids and venturing to the nearby Saqqara Pyramid Complex. A visit to the Grand Egyptian Museum is essential, offering a glimpse into the vast collection of Ancient Egyptian artifacts.
